

PROM

(PHOSPHATE RICH ORGANIC MANURE)

PROM

(PHOSPHATE RICH ORGANIC MANURE)

PROM fertilizer, also known as Phosphate-Rich Organic Manure, is a type of biofertilizer that combines organic matter with phosphate-rich materials. It's designed to enhance soil fertility and improve plant growth by providing a sustainable source of phosphorus. The organic matter helps improve soil structure and microbial activity, while the phosphate component supplies essential nutrients for plants. PROM fertilizers are used in agriculture to promote healthier crops and more sustainable farming practices.

FEATURE & BENEFITS :

- **Phosphate-Rich:** Contains a high concentration of phosphorus, which is essential for plant root development and overall growth.
- **Organic Matter:** Incorporates organic materials that improve soil structure and increase water retention.
- **Eco-Friendly:** Made from natural and renewable resources, reducing environmental impact compared to chemical fertilizers.
- **Improved Soil Health:** Enhances soil fertility by improving its physical, chemical, and biological properties.
- **Sustainable Agriculture:** Supports sustainable farming practices by reducing dependency on chemical fertilizers.
- **Reduced Carbon Footprint:** Contributes to lower greenhouse gas emissions through the use of organic and renewable materials.

ANALYSIS OF PROM

CNTENTS	
Total Phosphates (as P2O5 per cent by with., min.	8%
Moisture Percent by wt., max.	25%
Total N by wt, min	0.40%
Total Organic Carbon, percent by wt, min	10%
C:N Ratio	Less than 20:1

HANDLING & STORAGE:

- Minimized dust generation and accumulation
- Provide appropriate exhaust ventilation, at places where dust is formed
- Do not taste or swallow
- Avoid breathing dust, avoid contact with eyes
- Avoid prolonged exposure

- Wear appropriate personal protective equipment
- When using, do not eat, drink or smoke
- Wash hands thoroughly after handling
- Practice good housekeeping

SUGGESTED DOSE OF APPLICATION

CROPS: ALL CROPS
DOSAGE: 300-400Kg/ha
PACKAGING: Packing - 50 kg HDPE Bag

CONDITION FOR SAFE STORAGE:

- Store in original tightly closed container.
- Keep container tightly closed.
- Store in a well ventilated place
- Store away from incompatible materials.

CONDITIONS OF SALES:

Seller warrants that this product conforms to the chemical description and is reasonable fit for the purpose stated on this label when used in accordance with the directions under normal conditions for use. Since weather, crop, soil and other conditions may vary, CNF Agronomics (India) Pvt Ltd and/or the seller make no warranty of any kind, expressed or implied, concerning the use of this product. The user assumes all risk of use or handling whether or not in accordance with directions or suggestions. Any liability is limited to the cost of the product used.
